Our Work

PGSMA works each year to provide informative and educational events and resources that help enhance members' genealogical research and

understanding of Polish history and culture. We hold three speaker events per year as well as additional special outreach events. Our meetings, which are typically held on the

Thursday of March, June and October starting at 6:30, are a chance to connect with other researchers as well as learn about a new methods and sources that will assist you in your own projects.

Our bi-annual newsletter, Biuletyn Korzenie (Roots Bulletin) is mailed to our members. We welcome articles by our members that discuss their research and preserve the history of their family. Topics include new genealogical resources and techniques, interesting research projects, book reviews, and a schedule of upcoming genealogical events.

Our website and Facebook page provide information about genealogical resources and area cultural events. Both resources also allow individuals to share information and reach out to others for assistance, to make connections and to ask questions.
